WALLER FLOWERSEED COMPANY

Behind the New Masthead—

Is a solid program of Specialization in Quality Flowerseed designed to bring you the finest that advanced breeding methods and strict standards of production can supply. The finest Personnel, equipment and methods are utilized to their full advantage in the development, production and delivery of the best Flowerseed that can be produced. Trysomic Stocks, Petunia Popcorn, Marigold Lemon-drop, are a few of the new products of this fine policy. Full attention is applied to standard strains, though achievement in regard to them is much harder to emphasize than with a new item. We especially call your attention to the new index of varieties on the following page. In it and throughout our catalog you will note that we have indicated in heavy type those varieties in which we truly specialize and have responded most satisfactorily to our improvement program. Those varieties marked with an arrow indicate those introduced by our firm.

**THESE PRICES EFFECTIVE ON ALL SALES
IMMEDIATELY**

Minimum charge per item 50 cents.

GENERAL CONDITIONS OF DELIVERY

For every order that we shall accept, we have sufficient land planted to produce the desired quantity of seed under normal conditions.

Should the outcome of the crop be lower than our estimation, orders will be filled pro rata only. Crop failure or any other cause beyond our control releases us entirely from delivery.

We warrant, to the extent of the purchase price, that Seeds or Bulbs sold are as described on the container, within recognized tolerances. We give no other or further warranty, expressed or implied.

TERMS

All seeds are quoted f.o.b. Guadalupe, California, 60 days acceptance net, less 1% cash thirty days. Invoices payable in U. S. dollars only. All overdue accounts subject to sight draft without further notice. Bags and containers will be charged at cost and are not returnable.

We reserve the right to change prices in this list at any time.

**Three Ounces or Under at Ounce Rate
Four Ounces or Over, Pound Price Allowed**

W-F PREMIUM QUALITY FLOWERSEED

AQUILEGIA

Premium Quality assures our leadership in this field

Typical bloom of our Long Spurred Blue Shades

The popular Columbine has been brought to a peak of perfection by our plant breeding staff. Our hybrid mixtures are truly special, outstanding for strength and balance of color. Our W-F Hybrids strain is acknowledged to be the finest controlled mixed color Aquilegia offered the trade. Of the separate shades, the Blue and the Pink are the most popular. They are excellent companion colors.

Snow Queen received an Award of Merit, and Orange and Scarlet Shades was Highly Commended by the Royal Horticultural Society trials at Wisley 1953.

For complete listing please refer to page 16.

W-F PREMIUM QUALITY FLOWERSEED

CARNATIONS

Premium Quality assures our leadership in this field

Chabaud strain Carnations

Fine new varieties have been added to our list this season, based on extensive trials and breeding work. You will find much needed interesting colors, which along with our standard strains, give us the most fully rounded and complete Carnation growing program in California.

Many fine improvements have been included in the plantings of our regular strains. Increasing attention to Carnation breeding problems shall result in current crop of more fully double strains truer to color and type. As the next few seasons develop, even finer results will be noted.

For complete listing please refer to pages 22 and 23.

W-F PREMIUM QUALITY FLOWERSEED

DELPHINIUM

Premium Quality assures our leadership in this field

Delphinium Sapphire as introduced by W-F in 1953

As the prime Delphinium growers, we have developed the production of the strains we grow and list to an unexcelled high standard of quality and purity.

Our Belladonna and Bellamosum strains are unrivalled for florist use; they are therefore exceptional for garden use. Through many years close cooperation with the originator, our Pacific Hybrids dominate the trade with their excellence. If you are not already using our Delphinium strains, we wholeheartedly recommend that you try them. The fine results will surprise you.

Note—Our two-crop system assures early delivery and strong new crop germination from a harvest period almost four months in duration.

For complete listing please refer to pages 27 to 29.

W-F PREMIUM QUALITY FLOWERSEED

HOLLYHOCK

Premium Quality assures our leadership in this field

Triumph Supreme

Triumph Supreme is a superior strain with a full color range of unsurpassed variety. All the favorite colors plus vivid scarlets, orange, and buff combinations not to be found in other existing strains. Full double blossoms gracefully waved and fringed show well above the foliage. Early blooming and highly rust resistant.

Chaters Double types are available in all the separate colors and named varieties, as well as an excellent selection of well balanced mixtures and blends.

Our characteristically fine attention and regard for quality is apparent in the superiority of our strains.

For complete listing please refer to page 34.

W-F PREMIUM QUALITY FLOWERSEED

PANSIES & VIOLAS

Premium Quality assures our leadership in this field

Pansy Color Carnival

We devote our efforts in this field to producing an exceedingly choice short list of Pansies and Violas in our acreage in the Santa Maria valley. By specializing in a relatively few choice strains we have achieved a remarkable acceptance through a world-wide trade. Our California-grown Pansy and Viola seed is very high germinating and of a longevity that makes it practical when properly stored by you to keep a carryover supply for your early summer trade. All seed is hand picked and cured as is only possible in our sunny, dry summers.

For complete listing please refer to pages 43 and 69.

W-F PREMIUM QUALITY FLOWERSEED

PETUNIAS

Premium Quality assures our leadership in this field

*W-F Extra Dwarf Giant of California
growing in a three-inch pot*

True to name and type Petunias must be grown, as they are at W-F, with good isolation and backed by skillfully scientific breeding work.

From regular bedding types to the most select florist strains our Petunias have achieved a superior record of purity.

When you use our strains you can depend on repeat business. This is doubly important because Petunias are one of your top money-making items.

For complete listing please refer to pages 44 to 47.

W-F PREMIUM QUALITY FLOWERSEED

SWEET PEAS

Premium Quality assures our leadership in this field

Spray of Early Multiflora Sweet Peas

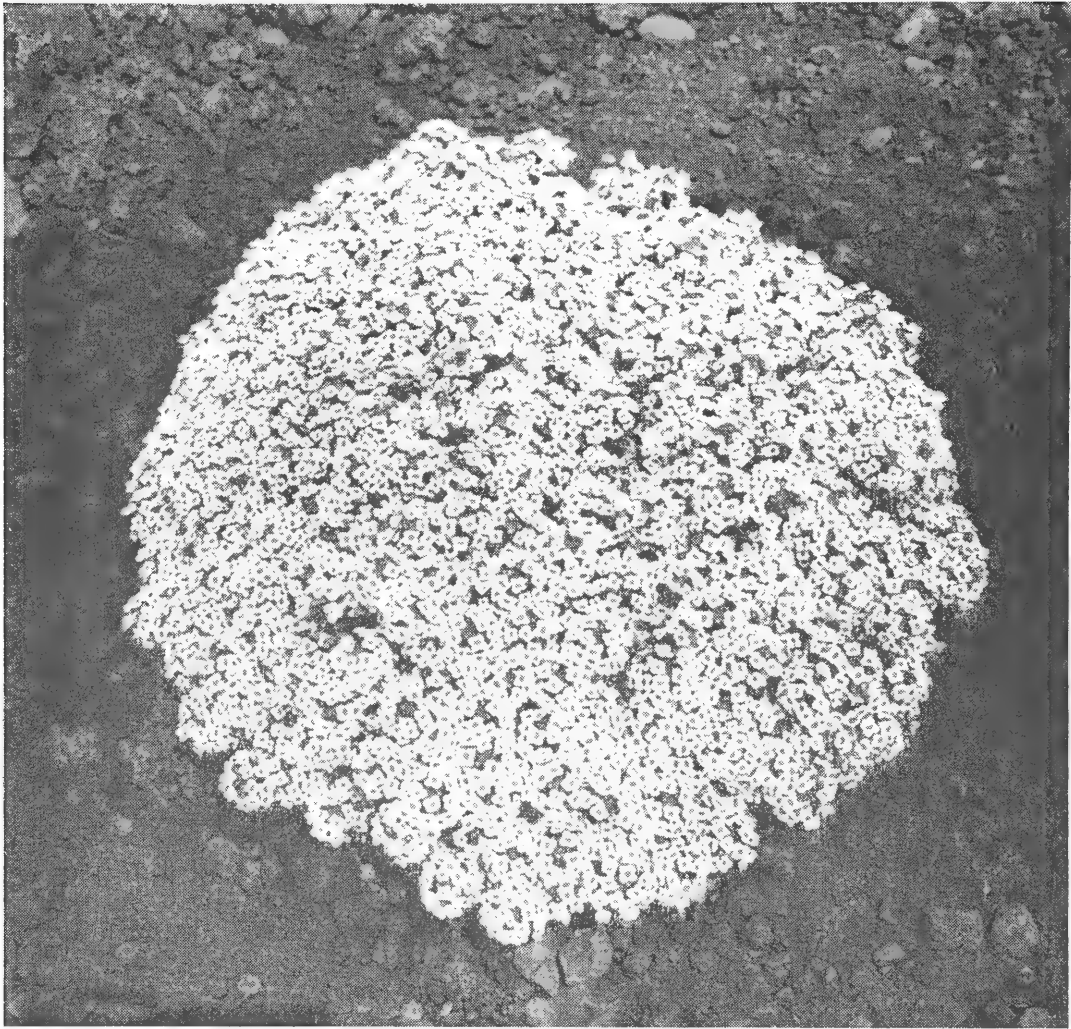

Purity in this field has been one of the keynotes of our company's success since our first crop was planted in November, 1912.

Our effort in Sweet Peas is devoted primarily to the improvement of existing standard varieties rather than novelties.

Vast crops are grown each year of truly fine Sweet Peas. Our yearly individual plant line selection system assures the highest degree of quality. Our listing, though comparatively short, offers a wide range of exceptionally choice varieties.

For complete listing please refer to pages 58 and 66.

WALLER FLOWERSEED COMPANY

-----------------	------------------	------------------

ANTIRRHINUM or SNAPDRAGON

Annual—220,000 seeds per oz.

In response to many requests, and as originators of all Majus and Maximum Rust Resistant varieties in general commerce, we have reorganized our growing program and reclassified our listing of these Antirrhinums. The objective has been to simplify and pass along to you benefits of our extensive breeding work of recent years.

Through breeding work to improve both Majus and Maximum strains, the two have become virtually identical. Majus are now slightly taller and Maximums have better and closer spacing of flowers, thus erasing the original basic differences between these two types. We, therefore, have classed both in one group as follows.

We have noted preferable named varieties in boldface in a complete color range. Those varieties we now consider secondary in choice and identical in color have the recommended variety noted after their variety name.

We sincerely hope you approve this endeavor of ours. If so, would appreciate hearing from you as other groups of flowers could also be so clarified in a similar manner.

TALL RUST RESISTANT, 2½ ft. (Majus—Maximum)

	Alaska, maximum, we recommend Shasta.....	\$3.00	\$30.00
W-F	Apple Blossom , maximum, rosy pink, white tube.....	3.00	30.00

PACIFIC BEAUTY CALENDULA

Originated by W-F

This new family of Calendula is the result of several years work to produce a strain with uniformly large flowers of better formation, longer and straighter stems, more clear colors, and more resistant to mid-summer heat.

W-F **Apricot Beauty**—Of an attractive two-toned effect together with large flowers and long stems. It is a far better apricot-colored Calendula.

W-F **Cream Beauty**—The creamy-white shading to soft light yellow makes this the most delicately colored of all Calendulas.

W-F **Lemon Beauty**—A pure lemon yellow. The long, wide petals give the flowers a much more graceful appearance and the centers are well covered.

W-F **Persimmon Beauty**—Flowers of a true persimmon-orange of unusual brilliance and size, with long graceful petals on tall, vigorous, long stems.

W-F **Pacific Beauty Mixture**—A blend of the four varieties described above.

Price of each, per oz. \$0.60, per lb. \$5.00

Candytuft Super Hyacinth Flowered Iceberg

CANDYTUFT

Coronaria and Umbellata—10,000 seeds per oz.

CORONARIA, 1 ft. —annual

ICEBERG

A new Super Hyacinth Flowered Florist Candytuft. Bloom size is unsurpassed in any strain we have ever seen, and is truly the feature of this new Candytuft, making it the finest we have marketed. Six spikes are the general rule, growing in our fields about twelve to fifteen inches tall. The individual florets are up to two times as large as any Candytuft previously offered. A striking variety for florist work equally suitable where this item is used in home gardens.

Price per oz., \$1.50; per lb., \$15.00

Price per oz. per lb.

CARNATIONS

Dianthus Caryophyllus—15,000 seeds per oz.

For several years we have been acknowledged leaders in the production of American grown Carnation seed. The varieties we offer have proved to be the best types for American gardens. They are carefully grown in well isolated plantings to assure trueness to color and type.

We are proud to advise that new and fine improvements have been incorporated in all our Carnation strains. Please note the wider range of colors, which are all to be found in our blends and mixtures.

ANNUAL BLOOMING VARIETIES

ENGLISH GIANTS (J. M. Bridgeford Strain)

Mixed colors, superior size blooms comparable to greenhouse grown carnations if secondary buds are removed. 18 in. \$2.00 \$20.00

MARGUERITE, 20 inches.

Choice Mixed 1.20 12.00

CHABAUD'S GIANT IMPROVED, 20 inches.

These Carnations bloom five months from time seed is planted and continue throughout the summer. The plants are of robust upright habit; they form ten to twenty stalks, bearing huge flowers of fine form; they come about 95% double, remarkably true to color, and are clove scented.

ANNUAL

TRIUMPH SUPREME

A W-F introduction of rare merit. Reports from over the world indicate that this variety is such an early blooming strain that it more rightly deserves to be listed as an annual, earlier than Indian Summer and blooming with Indian Spring. Frilled graceful double blooms in a very wide and pleasing color range. Proven over 4 years usage to be one of the finest Hollyhocks ever introduced.

\$1.50 per oz. \$15.00 per lb.

DWARF GIANTS OF CALIFORNIA

W-F EXTRA DWARF FORMULA MIXTURE

W-F Special Strain. A supreme strain for the pot-plant grower. Extremely early to bloom. Noted for its base branching which provides up to three blooms at the earliest date, completely covering the foliage and providing a more saleable plant. Blooms at about 3 in. Huge blooms of top quality size. Maintained in separate colors in our fields to control color balance. Our program for this strain includes lath house production of our planting stock under strictly controlled conditions in pots.

Price per 1/16 oz., \$6.00; per 1/4 oz., \$18.00; per oz. \$60.00

In response to many requests, we are now offering the following separate colors as used in this fine strain. At the same price.

WALLER FLOWERSEED COMPANY

TRYSONIC GIANT IMPERIAL STOCK

Based on studies commenced by Dr. H. B. Frost at Cornell University in 1915 and furthered through consultation with our late co-founder Dr. J. H. Franklin during the '20s, the genetic theory of Trysomic doubles in Stocks was developed and was proven by 1930 to be capable of producing 85% doubleness from seed.

In addition to this desirable trait, the percentage of any planting can be increased up to 100% at the four-leaf seedling stage as at this period of growth the young singles are noticeably weaker and can be readily distinguished from the vigorous double flowering plants.

At this date of introduction, the Waller Flowerseed Company is the only grower with experience in this new field.

In all other respects the Trysomic Giant Imperial Stock is identical to current normal double strains.

Apricot	Chamois, buff-pink	Navy Blue
Azure Blue	Fiery Red	Salmon Pink
Bright Rose	Flesh Pink	White
Canary Yellow	Lilac Lavender	Choice Blend of Colors

Price per oz. \$10.00

Available to the trade only in sealed plain manila packets which do not bear our name. ½ oz., 1 oz., ¼ lb. sizes will be put up to your order. An order for less than ½ oz. will be packed and sealed at the total quantity ordered, otherwise we will not effect a numerical breakdown of less than ½ oz. lots.

STOCKS

Matthiola—Gilliflower—Annual—18,000 seeds per oz.

For many years W-F has been the world's leading grower and introducer of the finest strains of Double Stocks. Our method for maintaining doubleness assures you of only "High-Percent Double" Stocks, and our selection of varieties includes only those proven to be the most desirable.

As long ago as 1932 we received fifteen various awards from The Royal Horticultural Society of Great Britain for our doubleness and trueness of our Stocks. Every year we continue to carry on the immense amount of detail work necessary to maintain our foremost position.

DOUBLE LARGE FLOWERING DWARF TEN WEEK, 1 ft.

Ten Week Stocks are so named because they bloom in ten weeks after planting seed. Those in heavy type are the varieties we have selected as being the best of the brightest colors. In our test plantings they all grow and bloom together.

Azure Blue	\$1.40	\$14.00
Blood Red	1.40	14.00
Brilliant Rose	1.40	14.00

Sweet Peas	Price per oz.	Price per lb.
---------------	------------------	------------------

SWEET PEAS

Lathyrus odoratus—Annual Climber—340 seeds per oz.

NEW EARLY MULTIFLORA VARIETIES

Much favorable comment has been heard in the trade in regard to these Sweet Peas. Our own findings bear out most reports and in most instances outstanding performance has been achieved by them.

We find that they bloom shortly after the true Earlies, and ahead of Cuthbertson varieties. Their blooming season is long and prolific, continuing along with Cuthbertson and Late Spencers to the end of the season. Their habit is exceptionally vigorous; 6 and 7 blooms are the rule; more are frequently found. We have observed stems with twelve blooms. Stems are outstandingly long and sturdy.

Beauty Rose, carmine rose.....	\$1.25	\$10.00
Brilliant Rose, salmon tinged	1.25	10.00
Dandy, deep salmon pink.....	1.25	10.00

WALLER FLOWERSEED COMPANY

SWEET PEA COLOR CLASSIFICATION

We believe the following cross charting to have distinct advantages. Organized vertically in order of depth of color, from white to dark blue, horizontally for similarity of color between strains. For those of the many firms intending to replace standard Spencers with the new Cuthbertsons, this listing should prove invaluable. Outstandingly superior varieties, as grown by W-F, are indicated by an asterisk (*).
